## Tactix- About us

Tactix is a military and tactical clothing and equipment brand, intended for special force members and units.

We decided to put our knowledge and experience to a challenge by expanding our activities to a more professionally oriented branch. Together with the members of special units, we created various solutions, designed to meet the high standards and challenges that they face in their day-to-day tasks. In addition to clothing and uniforms (pants, combat shirts, field jackets, other clothing and equipment), we specialize in the production of plate carriers and bulletproof vests. Our products have been developed and tested in both tactical training as well as SWAT circumstances, providing the best possible feedback.

In the past years, the company our company has cooperated with foreign and domestic institutions, some of which are:

- Ministry of Internal Affairs of the Republic of Serbia
- Ministry of Defence of the Republic of Serbia
- Security Intelligence Agency of the Republic of Serbia
- United Nations – International Organization for Migration (IOM)
- General Headquarters of the United Arab Emirates Armed Forces (UAE GHQ)
- Ministry of Internal Affairs of the Republic of Montenegro
